

## Martina 6 Light Chandelier Black and Brushed Brass

The “Martina” Collection is so unique from a design stance. The glass is actually shaped as a bulb and the bottom glass holder is designed like the bottom of a vintage screw type bulb. The wiring has a “vintage” element since it is twisted the way Thomas Edison first introduced the bulb. The metal work is black while the glass holder is brass. The small chandelier model is shown; there are many matching units available.
