WARNING AND CAUTIONS: AVERSIOSAMENTE ET AGENES EN CASO ADVERTENCIAS Y PRECAUCIONES
* ÉTANBURE L'ÉLECTRICITÉ au contact à l'habiller principal pour au disjoncteur/avant de commencer l'installation en désignant le disjoncteur ou en enlevant un fusible.
* EN CAS DE DOUBTE SUR L'INSTALLATION ÉLECTRIQUE, VOIR UN ÉLECTRICIEN LICENCIÉ.
* VOIR UN ÉLECTRICIEN QUALIFIÉ POUR GARANTIR UN CONDUCTEUR DE PROTECTION DISJONCTEUR CORRECT.
* DESCONNECTE L'A ÉLECTRICIDAD en la caja de interruptor de circuito después de asegurando el interruptor de circuito o retirando el fusible.

• CONSULTE À UN ÉLECTRICIEN QUALIFIÉ POUR ASSURER LE CONDUCTEUR DE CIRCUIT DÉRIVÉ ADEQUADO.
• Si tiene dudas sobre la instalación eléctrica, consulte a un electricista certificado.

1. Fit the support screw (C) into the junction box using outlet box screw (E).

2. Connect the bars to the mounting (A) in the ceiling using the screws (E).

3. Strip 1/2 in. of insulation from wire ends. Twist stripped ends together with pliers (black to black, ground to ground, and white to white ground). Attach copper wire to ground wire.

4. Attach the caps (D) to the wires (A) and (B) using the electrical tape.

5. Attach the fixture to the ceiling by inserting the mounting strap (A) into the hole in the ceiling plate (H). Screw the cap (G) onto the protruding nipple until the fixture is held firmly to the ceiling.
