## Abalone Small Concrete Pyramid

1200-0044

---

Overall: 5"h x 4"w x 4"d

Finish: Abalone

Materials: Abalone Shell/Concrete

Availability: In Stock

Item Weight: 2 lb

We've taken an ancient shape and made it into a contemporary decorative accessory that will bring a hint of glint into an interior. The sparkle comes from the abalone shell mixed into the concrete that forms the Abalone Small Concrete Pyramid. This geometric profile has fascinated man since the Egyptians decided to build massive exemplars of them to house their royalty who have passed into the afterlife. Place our version on a shelf or atop a stack of coffee table books to create a tableau with pointy perfection. We also offer the Abalone pyramid in a larger size.
