Item Weight: 13 lb

The current obsession with aged home décor products in new packages has an edgy entrant with our Tawny Large Vase. Made of terracotta, the body of this jar-like vase has been treated to a tawny reactive glaze that gives it an age-old texture, and makes it appear to be mottled by time and an exposure to the weather. A smooth relief is the metallic bronze finish on the neck of the decorative vase that brings a luminous touch to the piece. We also offer the Tawny in a smaller size.
