Item Weight: 12 lb

As if it is glancing back to antiquity when primitive vessels were coveted as important life-sustainers, our Bavi Silver Large Vase affects a primordial pose. Made of cast aluminum that has been treated to a nickel antique finish, the appearance of age on this decorative accessory comes from the shape and the surface. The finish gathers in the crevices and in the stippling purposefully left on the piece to make the metal feel older than time itself. The Bavi comes in several sizes and finishes.
