Item Weight: 214 lb

The Bristol Etagere is composed of a riveting mix of mahogany solids, engineered hardwood and brass, the finishes of faux bone, vintage steel and antique brass a combination only a master mixologist could dream up. The hammered nailheads give it that extra oomph where design personality is concerned. The Bristol will equally introduce a rough luxe vibe to the urban oasis as it will the country manse. Design details include two fixed shelves, two adjustable shelves and an anti-tip kit. There are a number of pieces in our Bristol offerings.
