Item Weight: 119 lb

Inspired by the famed beaches of Southern California, our Solana Console Table is a contemporary piece perfect for foyers of homes set within those sunny climes or any interior that evokes the brand of modernism for which the state is known. The softer wood tones and tactile textures of the figured maple and mahogany in contrasting finishes heighten the drama of the piece. The dentil work edging the top and base are in a dark chocolate finish, which is juxtaposed against the golden walnut finish on the rest of the table.
