The kicky motifs on the drawer fronts of the Leiden Nightstand were inspired by mosaic tile patterns. This piece is a clever one with its textural interplay of dark and light that could be a great fit for interiors from mid-century modern to boho chic. The veneer pattern on the front is made from ash and wenge, the darkness of the wenge deepening beautifully when the dark pecan finish is applied to become a luscious dark chocolate tone. We also offer the Leiden in a cabinet.
