Item Weight: 11 lb

The Baines Drinks Table is one of our industrial chic offerings, the striated surface of the aluminum calling to mind the toothy tools that carved its grooves. The exterior is made even more textural given how the antique silver finish ebbs and flows through the fissures to create lines of dark and light. The silvery patches where the hand-applied finish builds up gives this little table a hint of glint. Beyond its handsome design attributes, this will be a happy accomplice at the hour it is time to time to pop the cork!
