Watts per Socket / Item: 13/13

One of our most charming designs, the Driscoll Wall Sconce has a sprig of petite leaves reaching toward the light from the bottom circular band holding the off-white shantung shade in place. These and the matching top band are made of metal that has been treated to a polished nickel finish. The loveliness of this design makes it a graceful fit for a feminine boudoir, a stylish child's bedroom, a chic spa or a finely outfitted hotel. The Driscoll meets ADA requirements.
