Watts per Socket / Item: 150/150

How exquisite is this bubble of glass frozen in its molten stage inside the blown glass body of our Haydon Table Lamp! Now you see why we take great pride in the breadth of the effects our glass artisans can achieve. The brown and clear intermingling of glasses gives this lamp such a graceful personality. Perched as it is on a clear crystal base and topped as it is with an off-white shantung shade fastened with a polished nickel finial, it perfects a luxurious pose.
