You might expect to find the profile of our Tessa Table Lamp in a less necessary décor piece like a perfume bottle or vase, but we thought this would be the perfect opportunity to give a lamp just as much personality in an interplay of grass green and clear glasses that have been given a seeded effect. Determined to keep the composition luminous, we placed it atop an optic crystal base and fastened the off-white shantung shade with a crystal finial. The polished nickel finish on the metal is equally bright.
