Suggested Bulb: G Globe

Socket Type: E26

Watts per Socket / Item: 60/60

Proving that an entire universe can be contained within a finely designed light fixture, our Aldington Pendant has an atomic felicity in its bearing. The flared shade with its circlets of metal puncturing it are made of brass that has been treated to a vintage brass finish, as is the thin stem from which it hangs. The fusion of simplicity and sophistication is one of the hallmarks of this design.
