## **Ceiling LED Pendant**

## START FROM HERE

- Make sure power is completely off at the fuse box.
- Have your fixture installed by a qualified licensed electrician
- · Prepare everything in a clear area.
- Wear gloves at all times during this installation.
- · Read instructions carefully before you start assembly.
- Keep this instruction sheet for future reference.

**Technical Support:** 1-877-452-6858

## Please Note:

· For dimming, a TRIAC type of dimmer is required.

**CAUTION:** CAUTION: HEAVY FIXTURE, THE JUNCTION BOX NEEDS TO BE REINFORCED BEFORE INSTALLATION. ALL MOUNTING SCREWS MUST SCREW INTO A MINIMUM OF 1" OF WOOD BEHIND THE DRYWALL. DO NOT MOUNT THIS FIXTURE JUST TO DRYWALL. (Be sure all wood that you screwed into, is secured to the cross beams/ceiling joists behind the drywall)

- 1. Remove the fixture from its original packaging. Remove the mounting plate (1c) from within the canopy (2a) by removing the two decorative nuts (2b). Attach the mounting plate (1c) to the reinforced junction box (1a) on the ceiling using two screws (1e) provided in the hardware package.
- 2. Before you mount the canopy to the mounting plate, first attach all wiring (1b) with the provided marrettes(white to white "N", black to black "L", ground to ground "G"). Align the mounting plate screws (1d) through the holes on the back of the fixture (1a) and secured with two nuts (2b). This will secure the canopy to the mounting plate (1c).
- 3. Select the hanging height of the fixture by adding or removing extension rods, install the quick connector (3a) from rod (2d) to LED connector (3c) from fixture body. Connect rod (2d) to fixture body (3b), then connect all rods (2c or 2e) until reach the upper rod end.
- You have now completed the installation of your fixture, enjoy.
