LED Lamp Wall Sconce

WS10336
INSTALLATION SHEET

START FROM HERE

- Make sure **POWER** is **COMPLETELY OFF** at the fuse box
- Have your fixture installed by a qualified licensed electrician
- Prepare everything in a clear area
- Wear gloves at all time during this installation
- Read instructions carefully before you start assembly
- Keep this installation sheet for future reference

Technical Support: 1-855-855-8926

Please Note:

- All Kuzco LED fixtures come with pre-wired LED module(s).
- Unless instructed to do so, please do not touch any part of the LED module(s) as any unnecessary contact with the module could cause permanent damage.
- For dimming, an ELV (Electronic Low Voltage) type of dimmer is required.

1. Remove the fixture from its original packaging. Remove the mounting plate **(1c)** and anchor plate **(2a)** from within the canopy **(2c)** by loosening the two set screws **(2d)**. Attach the mounting plate **(1c)** to the electrical junction box **(1a)**, using the two screws **(1d)** provided in the hardware package.

2. Connect all wiring with the provided wirenuts **(1b)** (white to white “N”, black to black “L”, ground to ground “G”). Now connect the anchor plate **(2a)** to the mounting plate **(1c)** using the screws **(2b)** provided. Now push the canopy backplate **(2d)** onto the anchor plate **(2a).** Using the two set screws **(2c)** thread the canopy backplate to the anchor plate turning clockwise until secure.

3. You have now completed the installation of your fixture, please enjoy.
