in Textured Bronze

	Safety cage equipped
 	Damp Location: All Finishes with Metal Blades. **

The beautiful Kaye oscillating, 3-speed wall or ceiling fan, reminiscent of train cabin ventilators of yesteryear, will cool down your favorite space with poise and determination. Kaye's profile is low, however its strength and character define it.

- Kaye can be mounted in small or awkward spaces or in front of HVAC ducts to make more efficient the heating, ventilation or air conditioning of a room.
- Available in the following finishes: polished chrome, brushed nickel or textured bronze.
- Constructed of cast aluminum and heavy stamped steel, the Kaye carries a limited lifetime warranty.
- Equipped with hand-balanced metal blades and metal safety cages.
- 3-speed wall control is standard equipment.
- To operate the oscillation mechanism independent of the fan blades, a three wire system is needed.
