

## ASSEMBLY INSTRUCTIONS

1. Carefully unpack and identify all parts referring to illustration for parts identification.
2. Turn the power to the installation point OFF.
3. Install proper bulbs (not included) into each socket referring to the markings and/or labels on the fixture for maximum wattage.
4. Assemble the glass shade (3) over the steel panel (4) and onto the cap (6), securing with the wheel (7).
5. Restore power to the installation point and retain this sheet for future reference.
