

ASSEMBLY INSTRUCTIONS

1. Carefully unpack and identify all parts referring to illustration for parts identification.
2. Turn the power to the installation point OFF.
3. Unravel the supply power and ground wires and pass them through the center holes of main rod (B), bottom column (C), coupling (D), center tube (E), (F) and canopy (G).
4. Install the main rod (B) into the hex nut of the fixture body (A).
5. Carefully place the bottom column (C) over the main rod (B) of the fixture body (A), securing with coupling (D).
6. Thread the bottom of center rod (E) onto the fixture body (A). Repeat the process for remaining center rods (E) and (F) as shown in the diagram. Hand tighten until snug.
7. Use quick link (H) to connect the top loop of center rod (C) to the loop on the canopy (D) and twist the locking mechanism to secure.
8. Refer to the additional installation instructions included with the product for wiring and installation.
9. Install proper bulbs (not included) into each socket referring to the markings and/or labels on the fixture for maximum wattage.
10. Restore power to the installation point and retain this sheet for future reference.
