

## ASSEMBLY INSTRUCTIONS

1. Carefully unpack and identify all parts referring to illustration for parts identification.
2. Turn the power to the installation point OFF.
3. Unravel the supply power and ground wires and pass them through the center holes of center rod (F),(G), loop (H), and canopy (I).
4. Install the long tube (B) onto the nipple at the bottom of the fixture body (A).
5. Install the short tube (C) onto the nipple at the bottom of the fixture body (A).
6. Thread the bottom of center rod (F) to the fixture body (A). Repeat process for remaining center rods (F) and (G). Hand tighten until snug.
7. Install the loop (H) into the top of center rod (G).
8. Use the carabiner (J) to connect the loop (H) to the loop on the canopy (I) and twist the locking mechanism to secure.
9. Pass the support pin (D) through the hole of the shade (E) and install it into the coupling of the fixture body (A). Hand-tighten until snug.
10. Refer to the additional installation instructions included with the product for wiring and installation.
11. Install proper bulbs (not included) into each socket referring to the markings and/or labels on the fixture for maximum wattage.
12. Restore power to the installation point and retain this sheet for future reference.
