

ASSEMBLY INSTRUCTIONS

1. Carefully unpack and identify all parts referring to illustration for parts identification.
2. Turn the power to the installation point OFF.
3. Unravel the supply power and ground wires and pass them through the center holes of rods (D), rod (E), loop (F) and canopy (G).
4. Thread the bottom of rods (D) to the fixture body (A). Repeat process for remaining rod (E). Hand tighten until snug.
5. Install the loop (F) into the top of rod (E).
6. Use the carabiner (H) to connect the loop (F) to the loop on the canopy (G) and twist the locking mechanism to secure.
7. Install the tube (B) onto the bottom of the fixture body (A).
8. Refer to the additional installation instructions included with the product for wiring and installation.
9. Install proper bulbs (not included) into each socket referring to the markings and/or labels on the fixture for maximum wattage.
10. Align the slots on the glass shade (C) to the studs on the cap on the fixture body (A) and twist the glass shade (C) until it is secure.
11. Restore power to the installation point and retain this sheet for future reference.
