

ASSEMBLY INSTRUCTIONS

1. Carefully unpack and identify all parts referring to illustration for parts identification.
2. Turn the power to the installation point OFF.
3. Unfold the arms of the fixture body (A) to desired positions.
4. Thread the loop (D) onto the protruding nipple at top of fixture body (A).
5. Carefully attach acrylic tube (C) into the arm of the fixture body (A), use mounting screws (B) to fix it without locking it. Repeat process for remaining acrylic tube (C). After all the acrylic tubes (C) are assembled, adjust the acrylic tubes (C) to level. Finally, fasten the mounting screws (B).
6. Carefully attach crystal beads (G) to the hook of the fixture body (A) as shown in the diagram.
7. Carefully place acrylic sleeve (F) and cap (E) to the socket of the fixture body (A).
8. Refer to the additional installation instructions included with the product for wiring and installation.
9. Install proper bulbs (not included) into each socket referring to the markings and/or labels on the fixture for maximum wattage.
10. Restore power to the installation point and retain this sheet for future reference.
