

B → A → C → D → E → BULB

1. Carefully unpack and identify all parts referring to illustration for parts identification.
2. Turn the power to the installation point OFF.
3. Unravel the supply power and ground wires and pass them through the center holes of center stem (B), nipple (C), center tube (D), (E) and canopy (F).
4. Place center stem (B) over the coupling of the fixture body (A).
5. Then thread the bottom of nipple (C) onto the center stem (B) of the fixture body (A). Repeat the process for remaining center tube (D), (E) as shown in the diagram, until snug.
6. Referring to the installation instruction with the product for the wiring and installation.
7. Install proper bulbs (not provided) to the sockets referring to the marking and/or labels on the fixture for maximum wattage.
8. Restore the power to the installation point ON.
9. Assembly is completely. Retain this sheet for future reference.
