

1. Carefully unpack and identify all parts referring to illustration for parts identification.
2. Turn the power to the installation point OFF.
3. Unravel the supply power and ground wires and pass them through the center holes of center tube (B), (C) and canopy (D).
4. Thread the bottom of center tube (B) to the fixture body (A). Repeat process for remaining center tube (B) and (C). Hands tighten until snug.
5. Referring to the installation instruction with the product for the wiring and installation.
6. Install proper bulbs (not provided) to the sockets referring to the marking and/or labels on the fixture for maximum wattage.
7. Restore the power to the installation point ON.
8. Assembly is completely. Retain this sheet for future reference.
