## HAMILTON NOUVEAU

Hamilton brings a fresh spirit together with the grandeur of an heirloom chandelier. Crafted completely in glass and crystal with a Bohemian hand cut crystal column, it reflects natural light beautifully throughout the day and sparkles with its own soft illumination at night. Large hand cut crystal pendants suspended from the deep curves of glass arms give Hamilton a delicate silhouette while crystal bobeches with scalloped edges add rich detail. It is a statement piece that can complement a distinguished traditional dining room as easily as it can add a counterpoint within a luxurious modern bedroom.
