# TECH LIGHTING

#### **PENDANTS-LOW VOLTAGE**

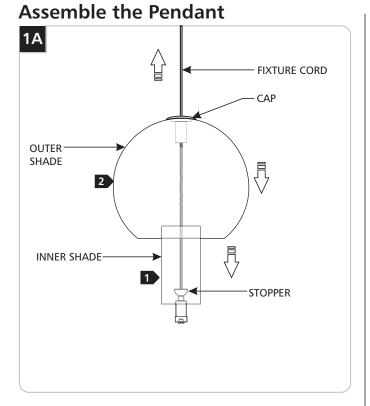

#### **GENERAL PRODUCT INFORMATION:**

This product is ETL listed and suitable only for indoor dry locations and approved for use at any height above the finished floor.

#### **Adjust The Fixture Height**

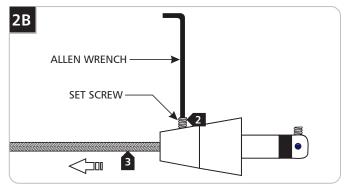

Feed the fixture cord through the inner shade then gently rest the inner shade on the stopper.

2 Feed the fixture cord through the outer shade and cap, then gently rest the outer shade on the inner shade.

2A ALLEN WRENCH SET SCREW

Back out (do not remove) the set screw on tip of the connector with the provided Allen wrench.

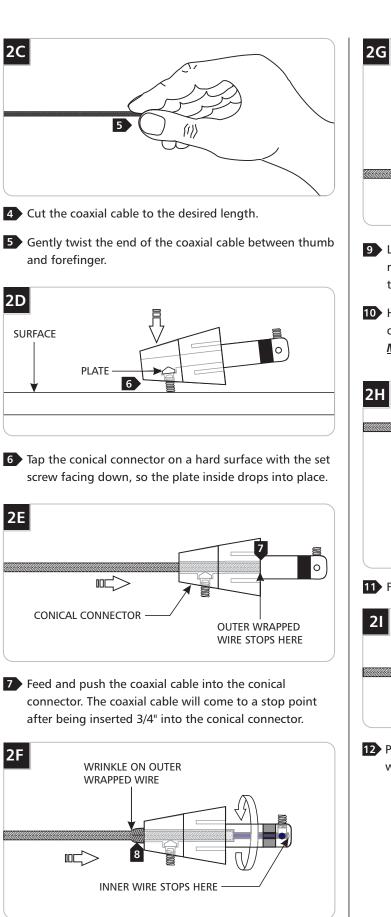

**2** Back out (do not remove) the set screw on the conical connector with the provided Allen wrench.

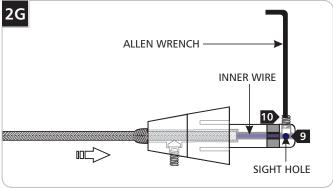

3 Pull the coaxial cable out.

1.0

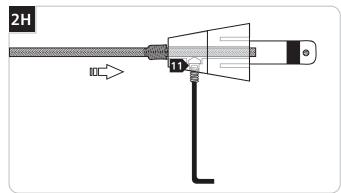

700FJPAL

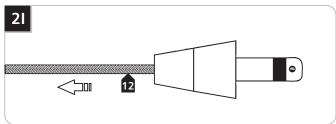

8 Keep pushing the coaxial cable into the connector while rotating the connector to ease feeding the inner wire into the tip of the connector. The outer wrapped wire will start wrinkling while being inserted another 1/2" into the connector.

- Look into the sight hole on the top of the connector to make sure that the inner wire is contacting the end of the connector.
- Hold the coaxial cable in place and tighten the set screw on tip of the connector with the provided Allen wrench. <u>Make sure this set screw connection is tight.</u>

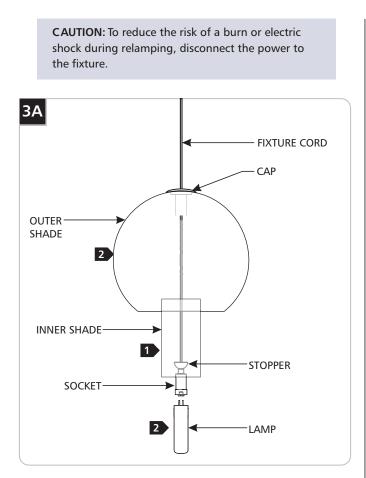

Pull the coaxial cable toward the fixture to smooth the wrinkles.

#### **Replacing the Lamp**

1 Carefully raise the shades up to expose the socket.

2 Remove the old lamp by pulling out and replace with new one by gently inserting lamp pins into the socket. Refer to the label on the fixture for Max Wattage Information.

3 Carefully lower the shades until they rest properly on the stopper.
