## GENERATION LIGHTING

**Outdoor****GENERAL PRODUCT INFORMATION:**

This product is safety listed for wet locations.

Incandescent lamps may be dimmed with a standard incandescent dimmer. LED lamps may be dimmed with a LED dimmer. Consult lamp manufacturer for additional information.

This instruction shows a typical installation.

**CAUTION - RISK OF FIRE**

This product must be installed in accordance with the applicable installation code by a person familiar with the construction and operation of the product and the hazards involved.

Use minimum 90°C supply conductors.

- 1** Connect the fixture to a suitable ground in accordance to local electrical codes.
- 2** Connect the white fixture wire to the neutral power line wire with a wire nut.
- 3** Connect the black fixture wire to the hot power line wire with a wire nut.
- 4** Secure the fixture to the post with the post screws making sure to neatly tuck in all wiring.
- 5** Screw the lamps into the sockets. Refer to the label on the socket for Max Wattage Information.
- 6** Install all glass panels by carefully sliding them into the fixture and securing them using the clips.
- 7** Place the cover over the frame and secure it in place with the cover screws.
