The Evie Round Mirror has a sophisticated appeal that goes hand-in-hand with the textural beauty of shagreen. The frame of this decorative mirror is made of ivory faux shagreen that is outlined in mahogany in a dark walnut finish. We have a number of offerings in this material designed by our director of furniture Aimee Kurzner, who was inspired by vintage shagreen furniture from the 1920s when she envisioned the pieces. The Evie mirror is also available in a rectangular version
