

Glass Installation & Front Mounting Instructions

For Gallery Sconce Models 21-7632 and 21-7635

B57

Page 1 of 2

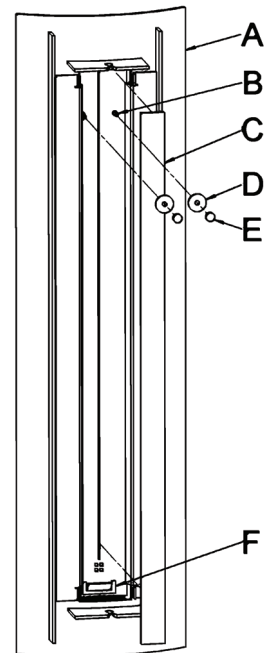

Please refer to fixture installation instructions prior to glass installation.

Component Parts

- A** Fixture Front Panel
- B** Threaded Stud
- C** Glass
- D** Washer (2)
- E** Knurled Ball (2)
- F** Glass Clip

To Install Front Glass

1. Insert glass (C) into fixture front panel (A).
2. Slide the glass into glass clip (F) at bottom of fixture inside the panel.
3. Secure glass in position by placing washer (D) and knurled ball (E) onto threaded stud (B). Be careful not to over tighten knurled ball causing glass to break.

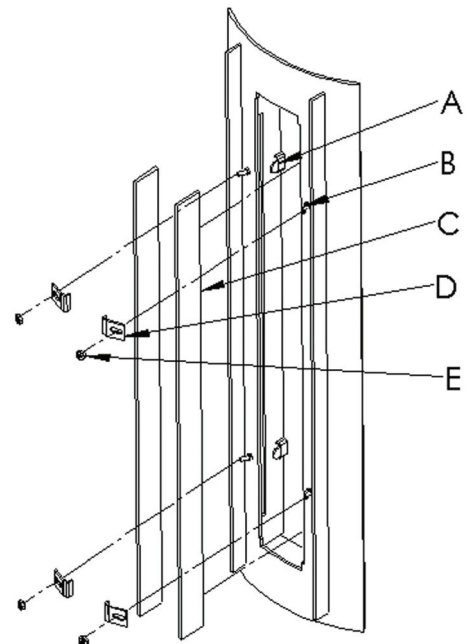

Component Parts

- A** Glass Stop
- B** Threaded Stud
- C** Glass (2)
- D** Glass Clip (4)
- E** Hex Nut (4)

To Install Side Diffuser Glass

1. Install glass (C) into glass stop (A).
2. Install glass clips (D) and hex nut (E).
3. Slide glass clip (D) against glass (C) and tighten hex nut (E). Be careful not to over tighten hex nut causing glass to break.

Glass Installation & Front Mounting Instructions

For Gallery Sconce Models 21-7632 and 21-7635

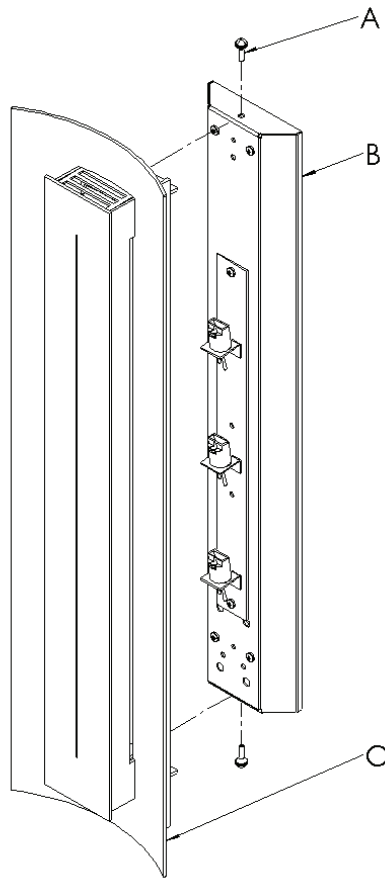

Page 2 of 2

Component Parts

- A** Ball Head Screw (2)
- B** Fixture Can Assembly
- C** Fixture Front Panel

To Install Glass and Front Panel

1. Install light bulb (Fluorescent or G9).
Caution: Do not touch G9 bulb with bare hands; oil from hands will reduce bulb life.
2. Mount ball head screw (A) in top and bottom of fixture can assembly (B). Only thread a couple of turns for each screw.
3. Align slots on the top and bottom of fixture front panel (C) with the ball head screws previously installed into fixture can assembly (B). Slide the fixture front panel (C) back until it fits against fixture can assembly (B).
4. Tighten both ball head screws (A) to secure fixture front panel (C).

If you need further assistance, or find that you are missing any parts, please contact the dealer from which you purchased this product. We hope you enjoy your fixture!
