# LED Flush Mount

START FROM HERE

• Make sure **POWER** is **COMPLETELY OFF** at the fuse box
• Have your fixture installed by a qualified licensed electrician
• Prepare everything in a clear area
• Wear gloves at all time during this installation
• Read instructions carefully before you start assembly
• Keep this installation sheet for future reference

Technical Support: 1-855-855-8926

Please Note:
• This Kuzco LED fixture comes with pre-wired LED module(s)
• Unless instructed to do so, please do not touch any part of the LED module(s) as any unnecessary contact with the module could cause permanent damage
• For dimming, an ELV (Electronic Low Voltage) type of dimmer is required
• 120V input

1. Remove fixture from its original package

2. Separate mounting plate **(1c)** from fixture backplate **(2a)** by removing decorative nuts **(2c)**

3. Align mounting plate screws **(1d)** to desired orientation, and then attach mounting plate **(1c)** to electrical junction box **(1a)** using junction box screws provided **(1e)** in hardware package

4. Make proper electrical connections (**black** to **hot** "L", **white** to **neutral** "N", **ground** to **"GND")** with wire nuts **(1b)** provided in hardware package

5. Align and insert mounting plate screws **(1d)** through holes on fixture backplate **(2a)**, secure with decorative nuts **(2c)**

6. Secure glass **(3a)** to fixture backplate **(2a)** with screws **(2b)**
