

ITEM # SC1027-2

- * Please read all instructions before beginning assembly.**
- * Remove all parts from packaging and compare with the parts listed.**
- * Do not discard any contents until assembly is complete.**

STEP 1:

Diagram illustrating the initial assembly of the candle holder. A central candle is held in a holder (C). Two curved arms extend from the holder. Each arm has a small candle (B) attached to its end. Above each arm, a square box (A) is positioned, representing a candle. Arrows indicate the direction of movement for the boxes (A) and the small candles (B).

STEP 2:

Diagram illustrating the final assembly of the candle holder. The central candle is held in the holder (C). The two curved arms are now fully extended, and the small candles (B) are positioned directly below the square boxes (A), indicating they are ready to be lit.
