

ASSEMBLY INSTRUCTIONS

1. Carefully unpack and identify all parts referring to illustration for parts identification.
2. Turn the power to the installation point OFF.
3. Place the circle plate (9), poly (8), and circle plate (7) into the nipple (10) and lock them with the ring (6).
4. While threading wire through, assemble the rods (5) together using the nipples (4). Attach the bottom end of the rods (5) into the nipple (10) until hand tight.
5. Install the glass (12) to the socket (13) with the socket ring (11).
6. Use quick link to connect loop (3) on the canopy (1) and twist the locking mechanism to secure.
7. Twist the cylinder nut (2) onto the canopy (1).
8. Align grooves on the poly (15) with bumps on the inside of the housing (14) - push up and twist clockwise. Sure the poly is secure before releasing.
9. Refer to the additional installation instructions included with the product for wiring and installation.
10. Install proper bulbs (not included) into each socket referring to the markings and / or labels on the fixture for maximum wattage.
11. Restore power to the installation point and retain this sheet for future reference.
