MOUNTING PLATE

1 ▶ Remove the mounting plate from the fixture base

2 ▶ With the provided Allen wrench, loosen (do not remove) the set screw on the fixture base, then install the diffuser by sliding it onto the brackets making sure the rectangular tab is aligned with the recess of the diffuser and secure by tightening the set screws.

3 ▶ Connect the negative (-) fixture wire to the negative (-) driver wire with a wire nut.

4 ▶ Connect the positive (+) fixture wire to the positive (+) driver wire with a wire nut.

5 ▶ Connect the fixture to a suitable ground in accordance with local electrical codes.

6 ▶ Connect the white driver wire to the neutral power line with a wire nut.

7 ▶ Connect the black driver wire to the hot power line with a wire nut.

8 ▶ Properly place the driver, all wires, and wire nut connections into the junction box. Install the mounting plate to the 2"x4" junction box with two #6-32 screws or to the 4" junction box with two #8-32 screws.

9 ▶ Mount the fixture base onto the mounting studs and secure it in place by screwing the cap nuts onto the studs.
