INSTALLATION INSTRUCTION

FQ 2" LED - Trimless Remodel Housing

R2FRRL, R2FSRL

INSTALLATION ACCESSORIES

1. At the point of installation, cut a 3 5/8" round hole for a round or square trim (See **FIG. 1**).
2. Pull building supply wires through ceiling cutout and open fixture junction box door (See **FIG. 2**). Remove desired housing knockout and feed building wires into housing using appropriate connector.
3. Connect fixture wires to building wires: insert each supply wire into appropriate junction box connector. This fixture features electronic low voltage (ELV) or 0-10V dimming capabilities. To utilize ELV, wire black (line hot), white (line neutral), and green (ground) in accordance to dimmer specifications.

To utilize 0-10V dimming, wire purple (dim+), pink or gray (dim-), black (line hot), white (line neutral) and green (ground) in accordance to dimmer specifications.

When not using a dimmer, connect black fixture wire to hot, white fixture wire to neutral and green fixture wire to ground. Leave all other wires capped individually (See **FIG. 3**).

4. Place all wiring and connectors back in junction box and replace the junction box's cover (See **FIG. 4**).
5. Guide junction box through the cut hole and secure appropriately using the external key hole (See **FIG. 5**).

R2FRRL, R2FSRL

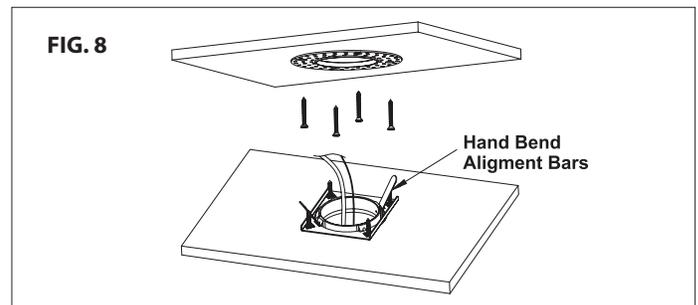

6. Insert upper frame through ceiling opening (See **FIG. 6**).

7. Raise trimless frame to ceiling cut out and insert alignment bars into upper frame alignment slots (See **FIG. 7**).

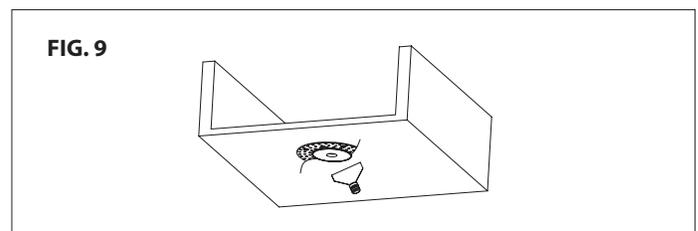

8. With upper frame and trimless frame flush with both ceiling surfaces, hand bend the alignment bars parallel to ceiling (See **FIG. 8**).

9. Insert and tighten four provided screws through countersink holes on trimless frame, through ceiling and into holes in upper frame. Do not over tighten screws (See **FIG. 8**).

10. Insert plaster shield inside trim opening. Apply plaster or spackle over trimless frame and sand surface dry for finished look (See **FIG. 9**).

11. Remove the plaster shield when finishing is complete (See **FIG. 10**).

12. Connect safety cable and power connector and install the trim assembly into the ceiling. Refer to installation instructions for appropriate trims to complete the installation (See **FIG. 11**).
